Professional Summary

Frontend developer with **2.3+ years** of experience building scalable and responsive web applications. **Strong in modern JavaScript frameworks like React.js, Tailwind CSS, Redux.** Skilled at delivering results independently or in global teams, with recent experience in freelance and startup environments.

Experience

Freelance Frontend Developer

Dec 2024 – Present

Remote (India & UK based clients)

- Worked with Logpilot (UK-based startup) to build B2B SaaS platform interfaces using **React, Tailwind CSS, and Redux.**
- Collaborated on multiple proof-of-concept features with founders and stakeholders to deliver results under tight timelines.
- Developed cross-platform mobile components using React Native for **Fitnex**, a fitness-focused startup.

EntroLabs, Hyderabad

Apr 2024 – Sep 2024

Software Engineer

- Developed robust authentication systems and scalable multi-role platforms in **React, Tailwind CSS, JavaScript.**
- Automated ID generation for employees, reducing workload and human errors.

Deepija Telecom Pvt Ltd, Hyderabad

Feb 2023 – Mar 2024

Software Developer

- Built interactive analytics dashboards in **React, Tailwind CSS, JavaScript** to track user activity.
- Created a ticket management system to improve issue tracking across departments.

Kenisys Software Pvt Ltd, Hyderabad

Jun 2019 – Aug 2019

Full Stack Developer (Intern)

Projects

Communication App

Live Demo

Built a responsive real-time communication platform using React.js and modern frontend practices. The app allows users to:

- Send and receive messages in a chat interface.
- View active conversations and manage contacts.
- Designed an intuitive UI with smooth, user-friendly interaction flows.
- Simulate backend functionality using local state and storage to prototype real-world UX.

Video Streaming Platform (Netflix Clone)

Live Demo

Built a fully responsive React.js-based Netflix clone integrated with Firebase. Optimized UI and page load times.

Accessible Calculator

Live Demo

Created a feature-rich calculator with usability enhancements, historical logging, and feedback-driven improvements.

Fitness App

Live Demo

Developed a React app for personalized exercise routines and visual tracking of muscle-specific workouts.

Technical Skills

- **Languages:** HTML5, CSS3, JavaScript, PHP, SQL, Mern Stack
- **Frameworks/Libraries:** React.js, Redux, Tailwind CSS, React Native
- **Databases:** MySQL, MongoDB
- **Tools:** Git, Vite (Build Tool)
- **Concepts:** Responsive Design, Component-Based Architecture, REST APIs

Education

Master of Technology (M.Tech) – Visvodaya Engineering College, Kavali (2021–2023)

Percentage: 75%

Bachelor of Technology (B.Tech) – PBR VITS, Kavali (2015–2019)

Percentage: 63%

Certifications

Namaste JavaScript Certification – Namaste Dev by Akshay Saini 2024

View Certificate

Deep dive into core JavaScript concepts including closures, scope, hoisting, event loop, and asynchronous behavior. Completed hands-on assignments and project-based evaluation.

Languages Known

English, Telugu, Hindi
